INTRODUCTION

The California State Department of Education collects racial and ethnic data on public school staff and students in California in October of each year through the California Basic Educational Data System (CBEDS). This report presents a summary of the data for the state and for each county. The following characteristics may be noted from the 1988-89 data:

- * Of the over four and one-half million students enrolled in the public schools, 51.2 percent were reported as being members of racial/ethnic groups other than white.
- * Of those students enrolled in kindergarten through grade nine, 52.2 percent were members of racial/ethnic groups other than white; of those students enrolled in grades ten through twelve, 47.7 percent were members of those same groups.
- * Students reported in the racial/ethnic category of white accounted for 60.3 percent of the high school graduates in 1988.
- * Certificated staff members who reported themselves as being in the racial/ethnic category of white accounted for 81.6 percent of the total certificated staff.
- * The total number of full-time and part-time classified staff members was 224,396, and 39.2 percent of them were members of racial/ethnic groups other than white.
